## [Training Module Steps](#)

### [New in k-hub.in e library](#)

### [New Search Feature](#)

### [Special Collections](#)

### [lipi - medical](#)

### [Drug Matter](#)

### [Clinical Investigation](#)

## [Welcome to k-hub.in e library Platform Training Guide](#)

---

This comprehensive document has been designed to help you navigate through and effectively utilize the new interface of [k-hub.in](http://k-hub.in) e library

Throughout the training guide we will provide step by step instructions. Screenshots and illustrations are included to visually guide you through the process.

---

## [Objectives of new k-hub.in e library platform](#)

- More accurate results
- Improved browsing and searching speed
  - Easy to use interface
- A new and elaborative search engine (embedding discovery feature by default)

## [e – Resource types](#)

e-journals, e-books, e-magazines, case reports, videos, special collections, conference proceedings, e newsletters

## [Content search criteria](#)

Search: Author/Publisher/Country wise, Institution's publications, Keywords, Article and Alphabetical search

## [Addressing Issues](#)

Direct link for end users to report any issues based on any title

## [k-hub.in](http://k-hub.in) e library Platform Training Guide

### To access the k-hub.in platform. Kindly perform the following steps

1. Open any web browser (  Chrome /  Mozilla Firefox /  Microsoft Edge, etc.)
2. On the address bar, type [www.k-hub.in](http://www.k-hub.in)
3. Enter the given User ID and Password in the respective boxes. Please note, User ID and Passwords are case sensitive (capital letters should be written in capital and Vice Versa)

The screenshot shows the login interface of the K-HUB E-Library. On the left, there is a 3D illustration of a laptop, books, and a potted plant. On the right, the 'Sign In' section contains the following elements:

- Sign In** header
- User name** input field with a user icon
- Password** input field with a lock icon
- ☐ **Remember me**
- [Forget Password?](#)
- Sign in** button
-  [Request Free Trial!](#)

Below the login section, a welcome message reads: "Welcome to K-HUB E-LIBRARY: A SINGLE PLATFORM FOR ALL E RESOURCES." Below this, a smaller line of text states: "K-HUB is the leading platform for collective academic e-resources, offering one of the biggest subjects collection among other". A graduation cap icon is visible in the bottom right corner.

4. After login, you will be directed to your dashboard. On the left side there will be a list of subjects subscribed by your institution. By clicking on a subject you will be able to view all the e resources associated with that subject.

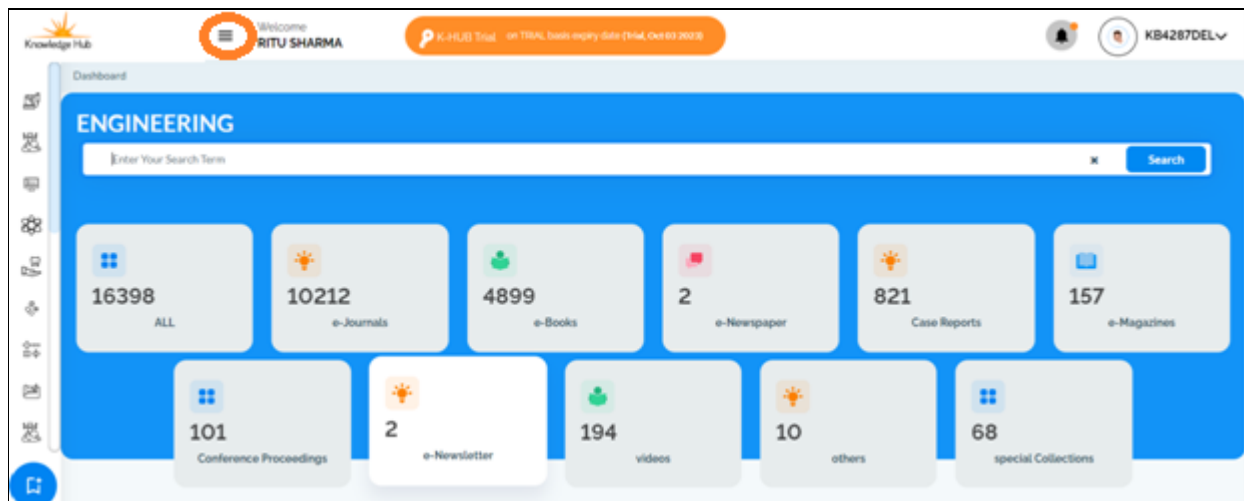

The screenshot displays the user dashboard after logging in. The main header is "COMPUTER SCIENCE" with a search bar labeled "Enter Your Search Term" and a "Search" button. Below the header, there are six tiles showing resource counts:

Resource Type	Count
ALL	4826
e-Journals	3086
e-Books	1696
Case Reports	7
e-Magazines	20
Conference Proceedings	17

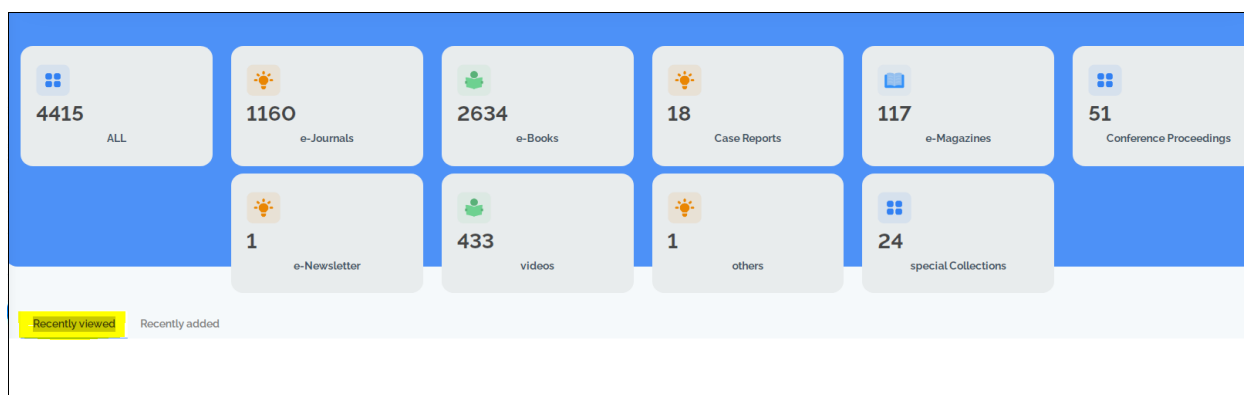

Below these tiles, there is a tile for "special Collections" with a count of 19. On the left side, there is a sidebar with a list of subjects: Architecture, Clinical Investigation, Computer Science, Decision Sciences, Dentistry, Drug Matter, Economics, Econometrics And Finance, Engineering, and Environment. At the bottom left, there is a "Subscribe more subjects" button. Below the tiles, there is a "Recently viewed" section with a list of resources and their corresponding journal counts:

Resource	Count	Type
ieee convolutional neural nets full text collections	27	eJournals
quantitative biology	26	eJournals
wiley general user computing open articles collections	27	eJournals
igi global security & forensics open collections	27	eJournals
ieee cloud computing open collections	27	eJournals

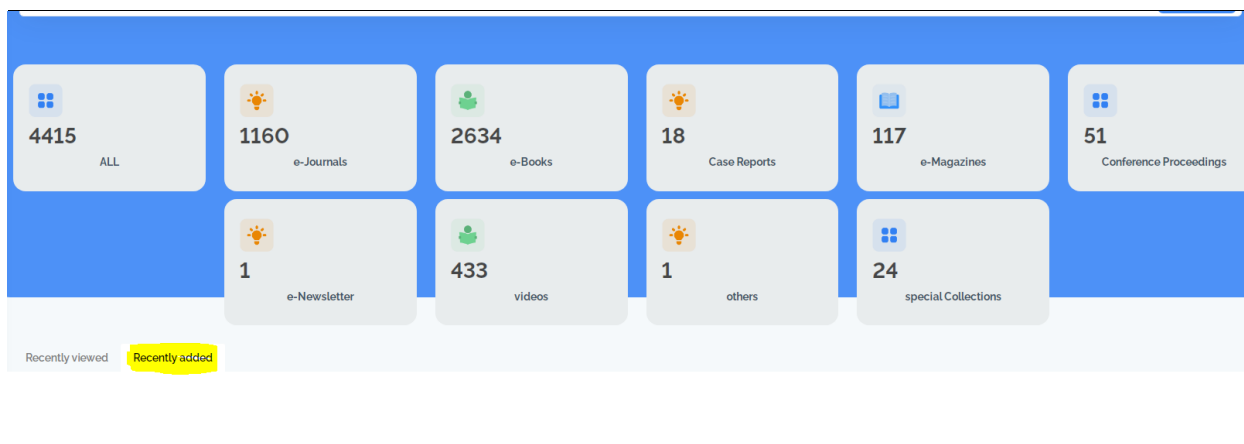

5. To expand /collapse your dashboard view click on “≡” **toggle icon** next to your name.

6. “Recently Viewed” tab on your dashboard shows a list of previously accessed or viewed items.

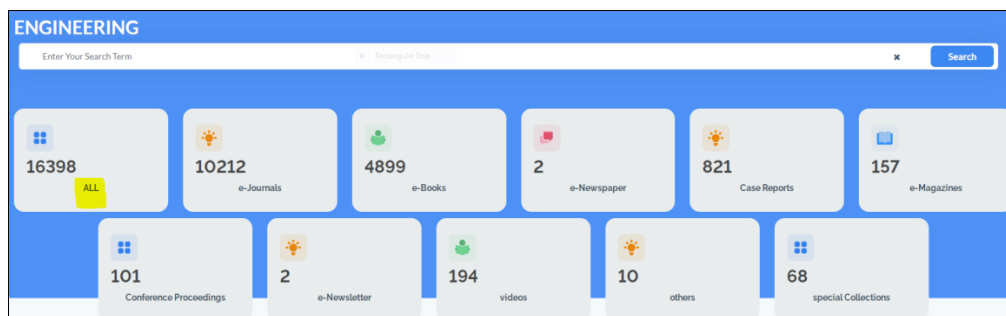

7. “Recently Added” tab on your dashboard enables users to easily explore and access the latest additions.

## [k-hub.in](http://k-hub.in) e library Platform Training Guide

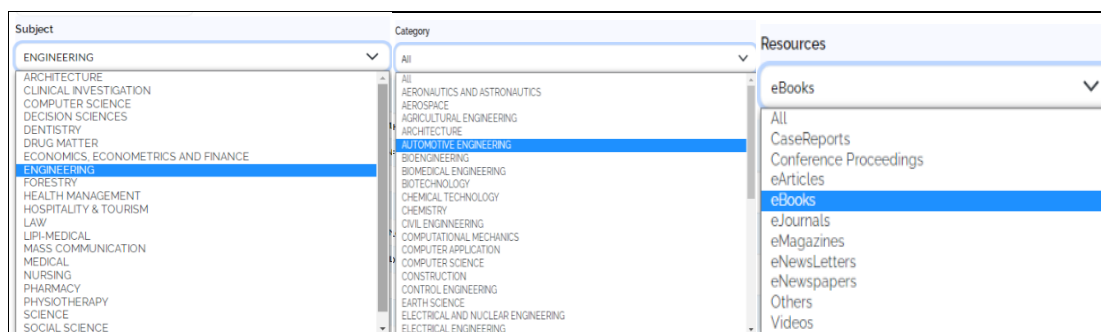

8. By clicking on **"ALL"** you can see the complete list of resources. Further, you will be able to browse resources and apply filters based on title, publisher and country.

9. After you have selected your subscribed subject, you can:

- select resource type by selecting – **Resources**
- select departments (sub-subjects) by selecting – **Category**

**Only E-books and E Journals are classified based on 'Category' or departments (sub-subjects).**

10. **"Access Types"** – This feature allows you to filter your search based on the content you are looking for. Such as Full Text, Embargo, Abstract and Partial Access.

No.	Title	Publisher	Country	Access Type
1	"PRODUCTION ERGONOMICS: DESIGNING WORK SYSTEMS TO SUPPORT OPTIMAL HUMAN PERFORMANCE"	UBIQUITY PRESS LIMITED	UK	
2	"SPONGY, SLIMY, COSY & MORE" - COMMEMORATIVE VOLUME IN CELEBRATION OF THE 60TH BIRTHDAY OF JOACHIM REITNER	UNIVERSITY OF GOETTINGEN	GERMANY	
3	"MACRO" EVALUATION OF THE NIHR OXFORD BIOMEDICAL RESEARCH CENTRE	OHE	INDIA	
4	125 YEAR OLD TECHNOLOGY	VERLAG DER TECHNISCHEN UNIVERSITÄT GRAZ	AUSTRIA	FT

## [k-hub.in](https://k-hub.in) e library Platform Training Guide

### New & Improved Search Engine

The new search engine in [k-hub.in](https://k-hub.in) e library platform provides an enhanced and user-friendly experience for searching and accessing relevant information. It allows users to easily find resources by entering keywords including article titles, search terms, subject, topic, institution's name, author, etc. This new search feature aims to simplify the process of locating and retrieving desired resources, making it more efficient and convenient for users to explore the k-hub platform.

1. You can search for any content by for the below details in the search box.

**Name of Publisher, Author, Institution, Keyword, Complete Article Title, Topic.**

×
Search

2. **"Institute Search"** This feature will display the articles specifically published by that institute by simply typing the name of any institute.

### Special Collections

k-hub.in e library has curated a special collection of full-text articles from premium publishers. These articles have been meticulously searched and curated by our team with great diligence. The purpose behind this effort is to provide our users with the best quality content available, ensuring that they have access to the most reliable and relevant information.

1. By clicking on Special collections, a screen will open where you can search for a specific term or explore any of the special collections through the list. All the details of related collection will show in right hand side pop up window.

## Drug Matter

A broad collection of drug-drug interactions helping medical professionals in recognizing the effects of a drug with another drug.

1. By clicking on “Drug Matter” subject below screen will show:

2. Enter the drug name you would like to learn about in the search bar.

3. After clicking on the search, you will able to see all the properties of that specific drug listed below:

4. Below the drug properties you will find the complete history of reactions/interactions associated with the specific drug.

No.	Interaction	Description
1	Resveratrol	The metabolism of Acetaminophen can be decreased when combined with Resveratrol.
2	Antipyrine	The risk or severity of adverse effects can be increased when Acetaminophen is combined with Antipyrine.
3	Ulipristal	The metabolism of Ulipristal can be increased when combined with Acetaminophen.

5. To access complete information about the drug with which the reaction is observed, you need to click on the name of the drug.

## [k-hub.in](https://k-hub.in) e library Platform Training Guide

No.	Interaction	Description
1	Resveratrol	The metabolism of Acetaminophen can be decreased when combined with Resveratrol.
2	Antipyrine	The risk or severity of adverse effects can be increased when Acetaminophen is combined with Antipyrine.
3	Ulipristal	The metabolism of Ulipristal can be increased when combined with Acetaminophen.
4	Streptomycin	Acetaminophen may decrease the excretion rate of Streptomycin which could result in a higher serum level.
5	Streptozocin	Streptozocin may increase the hepatotoxic activities of Acetaminophen.
6	Fingolimod	Fingolimod may increase the hepatotoxic activities of Acetaminophen.
7	Sucralfate	Acetaminophen may decrease the excretion rate of Sucralfate which could result in a higher serum level.
8	Sulbactam	Acetaminophen may decrease the excretion rate of Sulbactam which could result in a higher serum level.

## Clinical Investigation: Unveiling the Science of Medical Research

A complete solution for clinical research .This database will include over 300,000 studies from more than 200 countries. It will enable users to search based on conditions (diseases)/interventional and observational studies.

How to use **Clinical Investigation** step by step instructions:

1. The default page of clinical investigation lists all the diseases. You can start by browsing or searching the disease you want to search for. Clicking on the Start over button would simply refresh the page and remove all previously entered search terms.

The screenshot shows the 'CLINICAL INVESTIGATION' interface. At the top, there is a search bar with the placeholder text 'Search diseases/conditions' and a 'Search' button. Below the search bar, there are two tabs: 'Start over' (selected) and 'List of All Studies'. To the right of the tabs, there is a 'Show Rows' dropdown menu set to '10'. The main content area displays a table with 10 rows of diseases. The table has two columns: 'No.' and 'Browse Conditions/Diseases:'. The diseases listed are:

No.	Browse Conditions/Diseases:
1	"Hyperuricemia,Anserine"
2	(Between 60-92 Years of Age)
3	- Mild and Moderate Presbycusis (20 to 50 dB Average Hearing Loss at 500, 1000, 2000 Hz and 4000 Hz)
4	-Chronic Periodontitis
5	1 Night Recovery Sleep
6	1- Cancer Patients During Chemotherapy Treatment
7	1- Microvascular Function
8	1. VLBW Infants
9	10-20mm Colorectal Polyp
10	106 Ruthenium Plaque Brachytherapy

At the bottom of the table, there is a pagination bar with the text '< Previous' followed by a series of numbers: 1, 2, 3, ..., 4724, 4725, 4726, 4727, and 'Next >'.

2. By clicking on "List of all studies" option, you will be browse through all the studies based on all the diseases. Here, you can also perform a search which will search studies instead of diseases.
